Overall We believe that the number of SMI/SED persons served is underestimated due to the implementation of 2 new statewide MIS systems. We are working to resolve these problems.
We will submit corrected data when it becomes available.

This Table uses data from URS/DIG Table 2a, Table 2b, Table 14a, Table 14b, and from the US Census Bureau.

All denominators use US Census data from 2003.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Overall We believe that the number of SMI/SED persons served is underestimated due to the implementation of 2 new statewide MIS systems. We are working to resolve these problems. We will submit corrected data when it becomes available.

Note:

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3b, State Total Served During Year is calculated using data from URS/DIG Tables 3a and 3b.

This table uses data from URS/DIG Tables 3a, 3b, and 6.

Overall Data for this table will be available in early 2005.

6 Hospital Data for Other Psychiatric Inpatient Discharges comes from a database of discharge summaries. Admission data is not available.

Other Inpatient Data is not currently available for the rest of FY2003 b/c there is typically a lag of 6 months between discharge and receipt of Discharge summary data. Based on previous years data, there may be an additional 44 people who were discharged in FY 2003 who had not been discharged by September 30, 2004.

Residential Residential Tx Centers: Virginia does not have access to this data because the facilities are not run by the SMHA.

Community None

Overall There was no category for Age Unknown under Community Program Total Served and Number of Admissions During the Year so I added a line for it and then revised the formula in B15 and C15 so that the total served in the community included them. (Age unknown for Total Served at beginning of the year is 21; Age unknown for Admissions during the year is 383.)
